

## CLAIMS

I claim:

1. A method of painting on a work surface using the posterior of an infant, said method comprising the acts of:
  - preparing a protective covering on the work surface;
  - preparing the background media by placing it on said protective covering on the work surface;
  - placing a reservoir on said protective covering;
  - filling the reservoir with a paint;
  - dipping the posterior of the infant in said paint; and
  - stamping the posterior on said background media to create stamping prints.
2. A method as defined in claim 1, wherein:
  - said dipping and said stamping steps are repeated in sequence.
3. A method as defined in claim 1, further comprising the act of:
  - spraying a fixative agent on said background material to set said stamping prints.
4. A method as defined in claim 2, further comprising the act of:
  - spraying a fixative agent on said background material to set said stamping prints.
5. A method as defined in claim 1, wherein said filling step further comprises:
  - filling said reservoir with paint to a depth of between  $1/16^{\text{th}}$  of an inch to  $1/8^{\text{th}}$  of an inch.
6. A method as defined in claim 1, wherein said filling step further comprises:
  - filling said reservoir with paint to a depth less than  $1/8^{\text{th}}$  of an inch.
7. A method as defined in claim 1, wherein said filling step further comprises:

000000 000000

11

filling said reservoir with paint to a depth greater than 1/16th of an inch.

8. A package kit containing articles for painting using the posterior of an infant, said package kit containing:
  - a flat, flexible backing piece;
  - a protective cover folded into a compact size attached to said
- 5 backing piece;
  - a plurality of paint bottles attached to said backing piece;
  - a plurality of reservoirs attached to said backing piece;
  - a plurality of painting tools attached to said backing piece;
  - a plastic cover having a periphery, said plastic cover positioned
- 10 over said protective cover, plurality of paint bottles, plurality of reservoirs, and plurality of paint brushes, and attached around its peripheral edge to said backing piece.
  9. A kit as defined in claim 8, further comprising:
    - background media attached to said backing piece and under said cover.
  10. A kit as defined in claim 8, wherein said painting tools are paint brushes.
  11. A kit as defined in claim 8, wherein said painting tools are poly-brushes.
  12. A kit as defined in claim 8, wherein said painting tools are a combination of poly-brushes and paint brushes.
  13. A kit as defined in claim 8, wherein said plurality of reservoirs comprise a plurality of plates.
  14. A kit as defined in claim 13, wherein said plates are stacked for efficiency space usage.
  15. A kit as defined in claim 8, wherein:
    - said backing piece is partitioned into two rows, each row having a left, center and right portions; and wherein:

09216638, 1218198

- said protective cover is positioned in the left portion of
- 5    said first row;
- said plurality of paint bottles are positioned in said right  
portion of said first row;
- said plurality of reservoirs are positioned in said center of  
said second row;
- 10    said plurality of painting tools are positioned partially on  
in the left portion and partially in the right portion of said second row.
16.    A kit as defined in claim 15, further comprising:  
          a third row; and  
          a background media positioned in said third row.
17.    A kit as defined in claim 15, wherein said backing piece is  
rectangular.
